

## Soil Augers – Sources of Supply

**Dormer Engineering:** 4 Mayfield Street, Murwillumbah South, NSW 2484

Tel. (02) 6672 1533

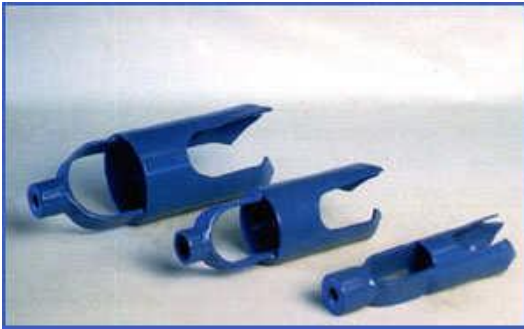

[www.dormersoilsamplers.com](http://www.dormersoilsamplers.com) [sales@dormersoilsamplers.com](mailto:sales@dormersoilsamplers.com)

Dormer make excellent equipment. Their sand augers work very well in other than sandy soils, but less well in very gravelly soils.

Dormer stems are light weight metal, an alloy of aluminium, which is very useful if you have to carry equipment long distances.

Common items in stock. Quick turnaround.

Price lists and information available on website.

JA Series for taking small samples

Approximate prices as at September 2024

T-handle, standard size (470mm wide) - \$109.72 plus GST
